

Summer Bootcamp - Nashville, TN

June 16-17

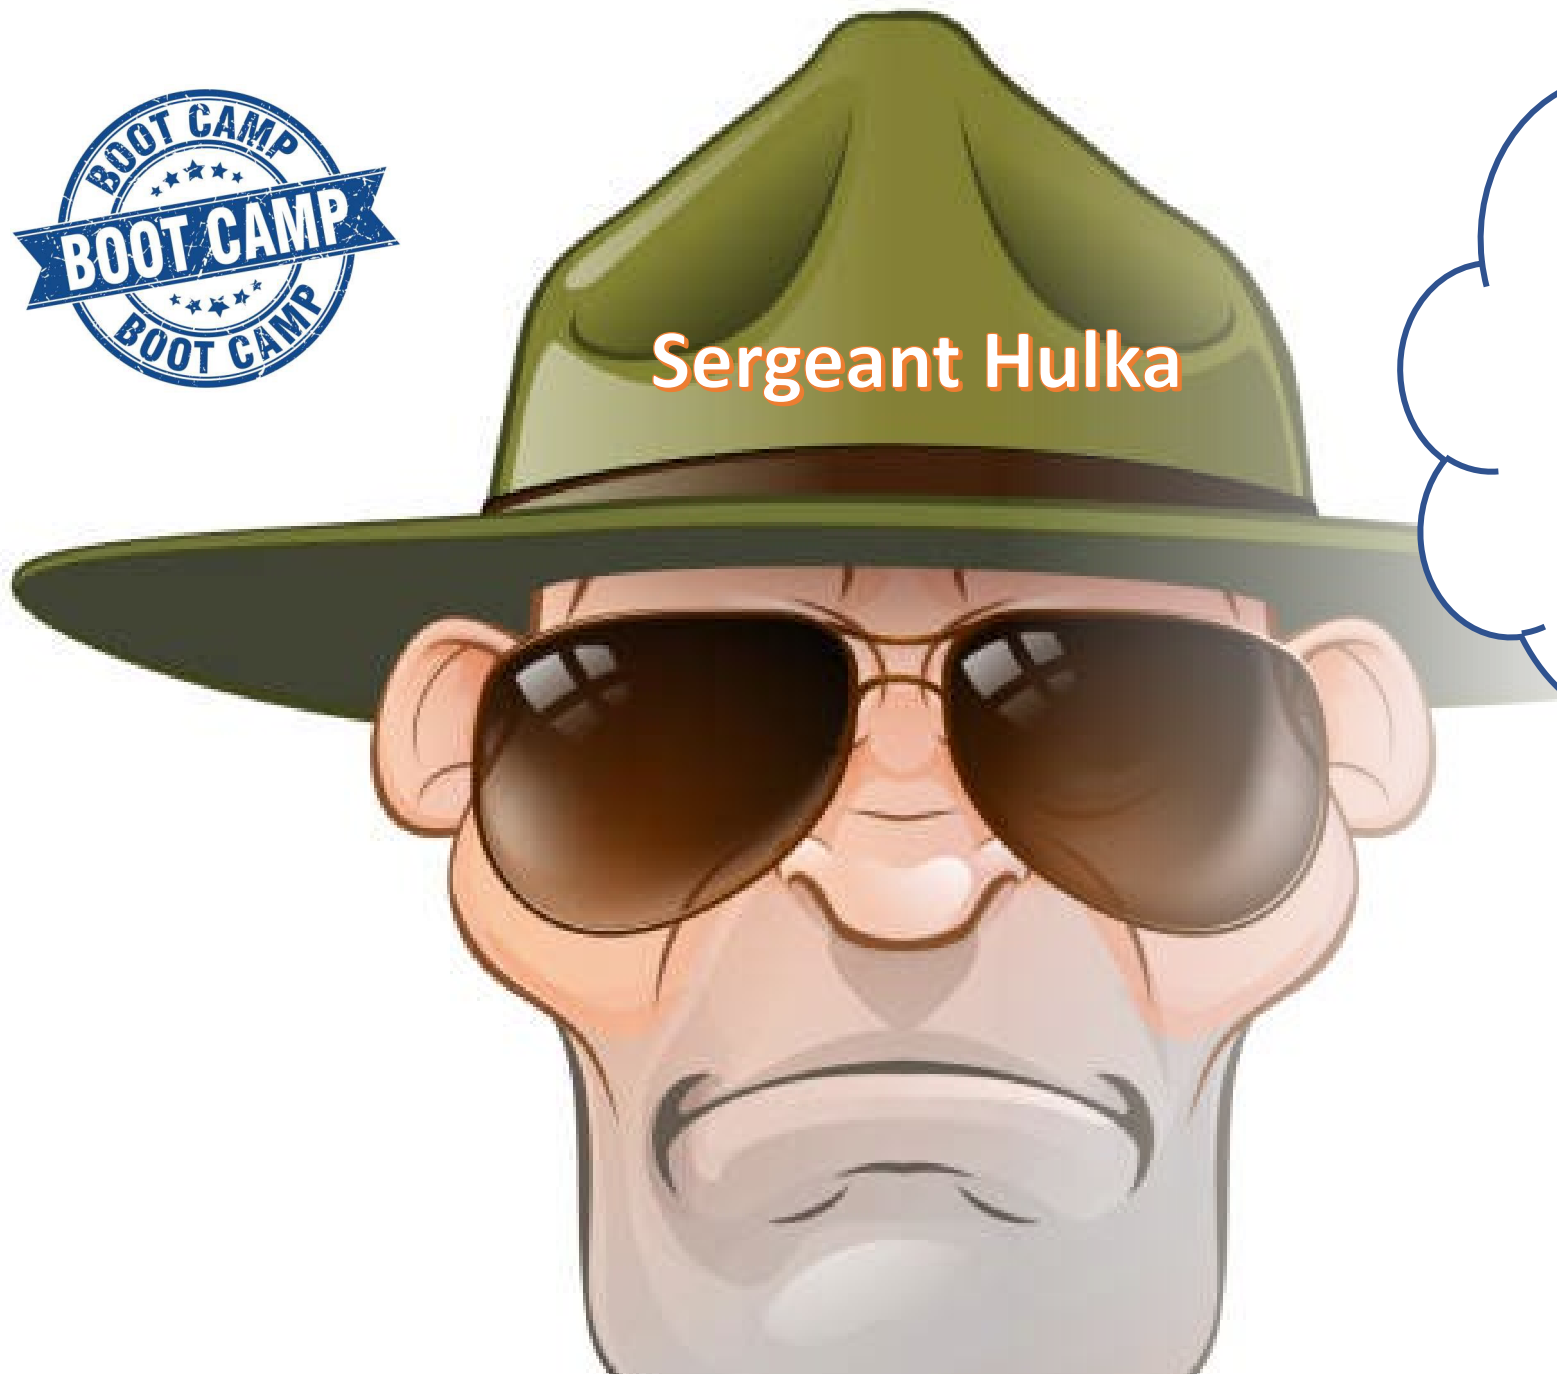

Summer Boot Camp

- NAACOS Summer 2022 Boot Camp will provide an opportunity to learn from successful ACOs how to harness your data to drive positive performance outcomes for ACOs in MSSP or GPDC/ACO REACH. Boot camp faculty will take a deep dive into data to answer your questions and provide examples of the power that data has to drive performance. The format for this boot camp will include presentations by leaders in accountable care, case studies, hands-on exercises, and peer-to-peer learning. After completing two full days, boot camp attendees will leave with actionable knowledge to enhance the most critical data needs within their ACO or DCE.
