Accountable Care Organizations (ACOs) are groups of doctors, hospitals, and other health care providers, who come together voluntarily to give coordinated high-quality care to their Medicare patients. The goal of coordinated care is to ensure that patients get the right care at the right time, while avoiding unnecessary duplication of services and preventing medical errors. When an ACO succeeds in delivering high-quality care and spending health care dollars more wisely, the ACO will share in the savings it generates with Medicare. In 2022, ACOs generated **\$4.3 billion** in gross savings of which **\$1.8 billion** was returned to the Medicare trust fund. ACOs have generated **\$21 billion** in gross savings over the last decade.
