

Clinical Operation Peer-To-Peer Session

**Emily Brower,
CEO, NAACOS**

Steps 1 - 3

This session will provide peer-to-peer activities that focus on ACO or VBC roadblocks your organization has encountered to brainstorm potential solutions.

1. Pair up with someone from another organization in the room
2. One person from each pair takes a Yellow paper, and the other takes a White paper
3. Write down a current roadblock or problem related to VBC transformation that needs to be solved in your organization.

Steps 4 and 5

4. The person with the Yellow page goes first:
5. Explain your roadblock to your partner and ask for their thoughts, creative feedback, advice, similar experience, solutions, etc.
 1. Discuss for 15 minutes you may use your paper to write down takeaways
 2. After 15 minutes, switch and the person with the White paper explains their current roadblock and consults their partner.

Takeaways

- Present your roadblock and suggestions they can take back to their teams with all participants.

Thank you!
